EXPERIENCE

Thales • Senior Product Designer

Jan 2022 – Present | Toronto, ON

- Lead end-to-end product design for enterprise SaaS cybersecurity products, partnering with 15+ global stakeholders from discovery through launch.
- Designed and shipped Quorum, a multi-party approval workflow that reduced coordination time by ~60% and scaled from 4 to 20+ protected operations.
- Directed the redesign of Thales' flagship cloud-based data security platform, simplifying complex interactions, aligning the experience across the product ecosystem, and increasing user satisfaction by 35% in post-test surveys.
- Expanded the shared design system with 20+ reusable UI components, establishing scalable patterns and accelerating cross-functional design and development by an estimated 40%.

IBM • User Experience Designer

May 2021 – Aug 2021 | Waterloo, ON

Industry-Sponsored Capstone Project

- Conducted user research and analyzed emerging AI trends during a 4-month IBM-sponsored project focused on responsible AI experiences.
- Translated insights into personas, journey maps, prototypes, and one validated product concept with a multidisciplinary team.

National Energy Net • UX Designer

Jul 2019 – Apr 2021 | Remote

- Led user research and end-to-end product design for Energy Link, a mobile learning and networking platform that grew to 100K+ users after launch.
- Unified five core capabilities into one connected mobile experience, streamlining professional learning, industry networking, and content discovery.

GES • Marketing Designer

Apr 2018 – Jan 2019 | Sunnyvale, CA

- Redesigned the official website to improve program discovery, information hierarchy, and brand consistency, increasing conversion by 37%.
- Created digital and print assets supporting integrated campaigns for an education organization serving 31K+ students globally.

EDUCATION

University of Waterloo

Master of Arts in Digital Experience Innovation | Graduated in Aug 2021

University of Pittsburgh

Bachelor of Arts in Digital Communication | Graduated in May 2016

SKILLS

Product Design

Product Strategy
Interaction Design
End-to-End Design
Information Architecture
User Flows
Prototyping
Design Systems
Product Discovery
Accessibility

Research & Validation

User Research
Usability Testing
Journey Mapping
Heuristic Evaluation
Competitive Analysis
Data-informed Design

TOOLKIT

Design Tools

Figma, FigJam, Miro, Axure,
Framer, ProtoPie, Rive, Adobe
Creative Cloud

Artificial Intelligence

ChatGPT, Claude, Gemini,
Lovable, Figma Make, Cursor

Research & Analytics

Pendo, Dovetail, Maze

Product Collaboration

Jira, Confluence, Kendis

CERTIFICATIONS

Google AI Professional Certificate
IBM Design Thinking Practitioner
Google Data Analytics Certificate
